Техническое описание термометра сопротивления TEMPERIX С FAFNIR

FAFNIR Sensors and Systems

Reliable, Universal Solutions for Your Level, Pressure and Temperature Measurement Requirements

FAFNIR prides itself on providing the highest-quality measurement solutions to all its customers, regardless of application complexity and size. After trading for approximately 45 years, driving industry innovation, and listening to our customers and their requirements, we are pleased to present FAFNIR's German-made, high-precision level, pressure and temperature measurement devices for the petroleum, pharmaceutical, chemical and food industries to you, our customers.

Why Buy FAFNIR Sensors and Systems?

Reliability, Accuracy and Ease of Installation as Standard

- + All our sensors are calibrated and stringently tested before they reach you, ensuring you receive only the best
- + With FAFNIR's "plug-and-play" sensors, installation is quick and easy
- + With pre-calibration, once installed, no adaptation to the liquid is required
- + Our sensor lifespan and failure rate is second to none. FAFNIR's field-proven sensors are installed globally

With 45 Years' Engineering and Manufacturing Experience, Customer Service is Key

- + Regardless of order complexity or size, we will find a solution for your business
- + We have listened to the market and we know you need the full solution from one supplier
- + We have extended our product portfolio to include pressure and temperature measurement so FAFNIR is at the forefront of your measurement needs
- + The FAFNIR team are experts. We design, manufacture and calibrate all of our products to the highest quality

The FAFNIR logo is a white circle containing the company name in a bold, sans-serif font. Above the name are four horizontal lines of varying lengths, creating a stylized graphic element.

FAFNIR™

Difficult Installation Conditions Are No Challenge for FAFNIR.

- + Designed to meet every requirement, our sensors fit the smallest to the largest openings
- + Our extensive range of sensors means we will have a solution for you, even when other suppliers don't

Extreme Process Conditions?

- + Our sensors are proven in temperatures of up to 450 °C or with up to 200 bar of pressure
- + With a response time of less than 0.2 s and information regarding the filling levels with an accuracy of ± 0.3 mm, you have constant visibility of your liquid stock
- + Reliability assured in corrosive, toxic and viscous substances

Temperature Measurement

Measuring the medium temperature is a common task in the pharmaceutical as well as in the chemical industry.

Due to the need to process the measurement result and meet the documentation requirements, almost all measuring devices used are electronic. This measurement is usually achieved with invasive measuring systems which reach into the process area.

When it comes to relatively small pipe diameters, a sensor tip reaching into the process area can be a significant obstacle to the flow. Therefore, the measurement of the pipe surface can be a better solution, as offered by FAFNIR, without any interference to the process.

TEMPERIX C

Resistance Thermometer TEMPERIX C for General Application

The resistance thermometer TEMPERIX C is suited for temperature measuring in tanks and pipes. Because of its compact design, the resistance thermometer is suitable for use in a great number of technological processes.

Why Choose the TEMPERIX C?

Main Features and Benefits

- + Compact design
- + High measurement accuracy
- + Output signal:
 - Pt 100, 3-wire technology (4-wire optionally)
 - 4 to 20 mA, 2-wire technology
- + Circular connector M12

TEMPERIX C with 2-wire 4 to 20mA output

TEMPERIX C with 3-wire PT-100 output

TEMPERIX C – Technical Data

Probe head

Protection class	IP65
Material	Stainless steel 304
Cable terminal	M12 Connector
Ambient temperature	-40 °C to +85 °C

Probe tube

Material	Stainless steel 316L
Process connection	G 1/4"; G 1/2" 1/4" NPT, 1/2" NPT
Measurement technology	PT 100
Accuracy class	A
Temperature range	-50 °C to +200 °C

Electrical connection

Output	3-wire PT 100 2-wire 4 to 20 mA
Voltage	8.5 to 36 V _{DC} (only for 2-wire 4 to 20 mA output)
